Exploring Knowledge to Newer Approaches 13th Asian Congress on Endometriosis

Annual Conference of Asian Society for Endometriosis and Adenomyosis

November 7-9, 2025, Biswa Bangla Convention Centre, Kolkata, India

Organised by: [Endometriosis Society India](#)

Calcutta (had a name change in 2001 and is now called Kolkata) was not just the 1st capital of British India for 140 years but it was also the 2nd most important city for the British after London. It was our country's first modern cosmopolitan city, and every community of note during that time helped to shape it into the most profitable and sought-after town in India. The city still has footprints of the Armenians, the Jews, the Chinese, the Greeks, the Portuguese & the English through the magnificent structures and edifices that earned our city the moniker of the "City of Palaces". Calcutta was also the art, cultural and educational capital of British Asia, with many of our institutions being the first or second of its kind. The Calcutta Medical College for example is the first oldest medical college to teach Western medicine in Asia. "The City of Joy" as quoted by Dominique Lapierre continues to be the most vibrant, friendly and loving city that embraces everyone who graces it with their presence. We are proud that this city produced Four Nobel laureates.

We warmly welcome you to our humble abode – our city of friendship and hospitality.
